Luis .A. Rodriguez

San Ignacio, Belize, Central America | 501-608-2077 | rodgetech@gmail.com|
www.rodgetech.com

Full-stack developer with over 9 years of working with web applications, cloud computing services, server-side technologies, and mobile development, with the fundamentals of software development comfortably intact. I am looking for a career that is nothing shy of challenging but more importantly, a career that contributes to the development and expansion of my skill set.

SKILLS

Front End	Html/Css, Typescript, React, Next JS
Back End	Php, Ruby, C#, Python, TypeScript, Convex, Supabase
Frameworks	Rails, Asp.Net Core, Node Js - Express Js, React Native, Nest Js, Next.js
Additional	AWS, Docker, Airflow, PagerDuty, Prometheus, Version Control, ...

WORK EXPERIENCE

7/2023 - 2025
Santa Elena, Cayo

Software Engineer, *BuildShip (US remote)*

Focused on strengthening the developer community through hands-on support, engaging content, and technical enablement. Created demos and community-driven templates, produced and hosted weekly YouTube videos and live streams, and actively participated in community events. Improved product documentation and provided direct community support through email, Discord, and meetings, helping builders succeed with BuildShip's platform.

5/2019 - 5/2023
Santa Elena, Cayo

Website Engineer, *Capacitive Media (US remote)*

Transferred numerous web applications from different hosting providers over to AWS using cloudformation templates to easily define the infrastructure via code. Setup ETL pipelines to better analyze ad expenditures and generate garnered reports. Collaboratively planned, designed, and implemented a web-based internal ad management system. Dockerized the company's existing legacy management tool. Rewrote the company's entire internal ad revenue reconciliation tool to modern React code.

7/2018 - 9/2018
Belmopan, Cayo

Technical Support, *Dealer Spike Belize*

Worked primarily on foreign clientele tickets mostly relating to basic front-end mending. Devised some basic UI mockups and implemented them in code upon approval.

2/2018 - 5/2018
Belize City, Belize

Full Stack Developer, *IdeaLab Studios*

Developed and maintained SAAS products for companies such as Centaur Cable Network, Heritage Bank, and Belize Hotel Association, just to name a few, whose services expanded the scope of traditional websites. Restified and versioned existing API's for greater predictability. Developed Restful API's for internal and external consumption. Migrated numerous websites from shared hosting to delegated virtual private hosting. Modernize the company's internal legacy CMS.

7/2017 - 2/2018
San Ignacio, Cayo

Software Engineer, *Belizing*

Developed Belizing Payments restful API for mobile consumption. Integrated the Stripe payment gateway to support payment transactions between tourists and suppliers. Developed a web portal for Belizing administrators to manage new payments and deposits, and for suppliers to manage new booking payments and payment archives. Created versioned API documentation to guide mobile developers.

6/2016 - 5/2017
San Ignacio, Cayo

Ecommerce Administrator, *Gitz Office Supplies*

Developed the core e-commerce infrastructure for gitz.bz. Worked on creating various utility scripts to assist employees with inventory and order management. Worked with the company's' software as a service (SAAS) API to deliver custom tiered functionality to consumers of the site.

7/2011 - 8/2012
Santa Elena, Cayo

Technical Maintainer, *True Vine Adventures*

Worked part-time on establishing the company's online presence in the tourism industry by developing its booking website using the LAMP stack. Maintained the company's website and payments infrastructure using PayPal.
